

Veterinary Students

Students have been an integral part of the symposium for many years now. They are allowed to attend without charge. Part of the charge for all members to attend includes money to cover student attendance.

Students receive the proceedings book as well as all meals and breaks. Students take part in the meeting just like any other member. For people in the job market, this meeting can be great exposure to employers and future associates.

There is a cost for all the meals and breaks and the proceedings, so we ask each student for a \$50 refundable deposit (by check) to secure their attendance. The check will be returned at the symposium assuming the student attends as promised. If the student does not attend after reserving a spot, their check will be cashed.

Hotel—Book by 3/2

The Symposium takes place at the East Syracuse Embassy Suites on Old Collamer Rd, Syracuse. The hotel number is

315-446-3200

Rates are \$116 for 1 king bed, or \$126 for 1 king bed, executive, or \$126 for 2 double beds. Book by **March 2** for these rates! They include breakfast and managers reception. On the website, there is a link to easy room reservations at these rates.

Meals are included in registration. The group meals will be dinner Friday, and lunch and dinner on Saturday. If you stay at the Embassy Suites, a hot breakfast is included in your room charge. Staying at the Embassy Suites helps us with the room promise. If we don't have enough rooms, we need to pay to rent the meeting room. Extra meals for other non-registered people can be paid for at the symposium.

Welcome!

Welcome to the 21st Annual Northeast Dairy Production Medicine Symposium!

The Planning Committee met at AABP last year and came up with a great list of topics and speakers. We have the program submitted to RACE for approval. New York has not made rules for CE providers as of the printing of this, so no NY approval. Topics to be covered include our right brain exercises Friday afternoon to help develop demand for your services, sub-clinical mastitis treatments, FDA enforcement activity, respiratory disease and scours in calves, and housing and feeding management of calves. Sign up now to avoid the cut-off and to get the best prices on rooms at the Syracuse Embassy Suites!

The mission of the Northeast Dairy Production Medicine Symposium, INC is to contribute to the well-being of our dairy producers by providing a unique educational experience for dairy-oriented veterinarians and veterinary students. The object of this experience is to provide motivation, information, discernment, and support for the practice of dairy production medicine.

To Register

To register, send in the registration form or visit us on the web at www.NEDPMS.org. You can pay by Paypal on the website (ACH draft or Credit Cards). All payments in US dollars please!
